SUMMARY

Web Developer with 1+ year of experience in building dynamic CRM systems and e-commerce websites using Laravel, PHP, MySQL, HTML, CSS, and JavaScript. Skilled in developing secure authentication systems, admin dashboards, API integrations, and responsive UI using Bootstrap. Strong understanding of backend logic, bug fixing, performance optimization, and database management. Proven ability to deliver complete end-to-end web solutions and contribute effectively in a fast-paced development environment.

WORK EXPERIENCE

Web Developer Intern | Abhisan technology Pvt Ltd. | Badarpur Border New Delhi **Jan 2025 - Mar 2025**

- Collaborated with the development team to design and implement frontend features using **HTML, CSS, and JavaScript**, and backend functionality using **Php and Laravel**. Built efficient CRUD modules to manage application data seamlessly.
- Utilized **MySQL** for structured database design, query optimization, and maintaining high data integrity, resulting in improved application performance and reliability.
- Worked closely with senior developers to enhance the UI/UX, improving user interaction, layout consistency, and overall usability across the platform.

Web Developer | Abhisan technology Pvt Ltd. | Badarpur Border New Delhi **April 2025 – Present**

- Built CRM and E-commerce applications using Laravel, implementing secure authentication, role-based permissions, RESTful APIs, and dynamic admin dashboards with Blade.
- Improved application performance by implementing **server-side validation, session management, structured error handling**, and resolving complex debugging issues across modules.
- Enhanced development efficiency by creating **reusable components**, automating CRM workflows, and delivering clean, scalable, and maintainable code for long-term project stability.
